Influence

Living & Sharing a Life of Wisdom
by Pam Gillaspie & Jan Silvius

The Bible is full of examples of those who paid attention not only to God's Word, but also to the people around them. They made themselves available to others to share what they had learned. God calls us to do the same. This inductive study on mentoring looks to the scripture for truth about growing relationships rather than building programs. Looking at both sides of mentoring, the lessons cover a variety of scriptural examples. We will consider not only the benefits of mentoring, but also the importance of safeguarding against potential problems as well. No matter where you are in your journey, there's always another step to take.

Format:

The format for these studies includes individual homework, large group fellowship and worship plus small group discussion and prayer.

Matthew:

The Christ, the Son of the Living God
(Part 2, Precept Method)*

When Jesus came, did people receive Him as the promised Messiah? What did they say about His miracles and His teaching? What caused them to call for His crucifixion? He says He's coming back. If He came today, would people recognize Him? As you study Matthew Part 2, you'll gain a deeper understanding of the resurrection and its power in your life. Then take up the challenge to share the gospel with others.

*Matthew Part 1 is NOT a prerequisite
